DETAILED ACTION

Election/Restrictions

1. Claims 14-16 and 25-26 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the reply filed on 06/09/2005.
2. Applicant's election without traverse of claims 1-13, 17-24 and 27-28 in the reply filed on 06/09/2005 is acknowledged.
3. The method invention of claims 1-13, 17-24 and 27-28 of this application contains claims directed to the following patentably distinct species of the claimed invention. One item from each of the following letter groups A-B must be elected.
 - A. the material layer (being removed (portions) using the protectant layer as a mask)
 - A-1. wherein the material layer is selected from a group consisting of a group II compound, a group III compound, a group IV compound, a group V compound, and a group VI compound.
 - A-2. wherein the material layer is selected from a group consisting of silicon, silicon dioxide, doped silicon dioxide, silicon nitride, poly silicon, aluminum, copper, titanium, titanium nitride, tantalum, and tantalum nitride.
 - A-3. wherein the material layer is made of a polymeric resin.
 - A-4. wherein the material layer is selected from a group consisting of a

dielectric anti-reflective coating, a bottom anti-reflective coating, and a development bottom anti-reflective coating (DeBARC).

B. silylation process

B-1. being performed by a gas phase

B-2. being performed by a liquid phase

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 2, 18 and 27 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and **a listing of all claims readable thereon, including any claims subsequently added.** An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Kenton Mullins on 08/19/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanhha Pham whose telephone number is (571) 272-1696. The examiner can normally be reached on Monday and Thursday 9:00AM - 9:30PM.
